- Spade-foot
- D-rings
- Tow lights
- Rubber wheel chocks
- Fire extinguisher
- Safety triangle kit
- LED emergency lighting

CAPACITIES

- Underlift
 - 4,000 lbs. fully extended
- Winch
 - 8,000 lbs. - 3/8" x 75' wire rope (single worm)

THE MPL-NG WRECKER

Eastern Wrecker Sales, Inc.

BUSINESS IS PICKING UP

With the MPL-NG wrecker from Jerr-Dan®, you'll have everything on your side – including time. Designed to help you get in and out quicker, the MPL-NG features the revolutionary Level Stop Assist System®. This patented technology helps you set up quickly by providing an interrupt to the remote control signal to stop the underlift at the precise desired loading position. Best of all, it's a Jerr-Dan—so it's built to get in and out, day in and day out.

MAKES QUICK WORK OF HARD WORK

MPL-NG VERSATILITY

Whether you're towing low-clearance sports cars or motorcycles, the MPL-NG's customizable wheel lift packages let you take on more jobs, faster.

MPL-NG EFFICIENCY

With its 90° rotating cross bar and standard adjustable Level Stop Assist System®, the MPL-NG gets you into the perfect position quickly and allows you to tackle tough picks.

MPL-NG DURABILITY

A corrosion-resistant modular aluminum body is built for a long working life, and Jerr-Dan's exclusive No-Lube™ technology reduces maintenance, saving time and money.
