Optional Equipment / Features Model 835 Flip Axle Detachable Gooseneck

SMART • SIMPLE • SUCCESS

More Payload

With the addition of our flip axle to your current Landoll 835 trailer, you can legally haul heavier loads - up to 60,000 pounds in most states (with a permit). Taller, wider and heavier combines continue to be introduced to the marketplace. Landoll built Flip Axle brackets into your trailer when you made your original investment. Now with a simple installation, you're ready to move heavier loads with success. A smart move!

Proven Solutions for Your Hauling Needs!
Remember: Quality is Always a Bargain!
