THE SWAPLOADER ADVANTAGE

1 Adjustable Height Jib

Enhances the versatility of the SwapLoader hoist to adjust between different hook heights without the use of tools or hydraulics.

2 Sliding Jib

True horizontal movement across the hoist allowing the body to remain safely within the rear body locks throughout the jib travel.

3 Low Pressure Hydraulics

Ease of compatibility with other hydraulic powered equipment and reliable year round operation.

4 Dual Integral Counterbalance Valves

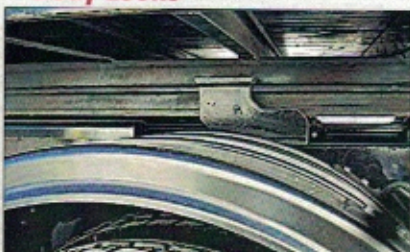

Built in protection should an unexpected loss in hydraulic pressure occur.

5 Dual Lift / Dump Cylinders

Increased safety and stability during mount, dismount, and dump cycles.

6 Slide Through Rear Body Locks

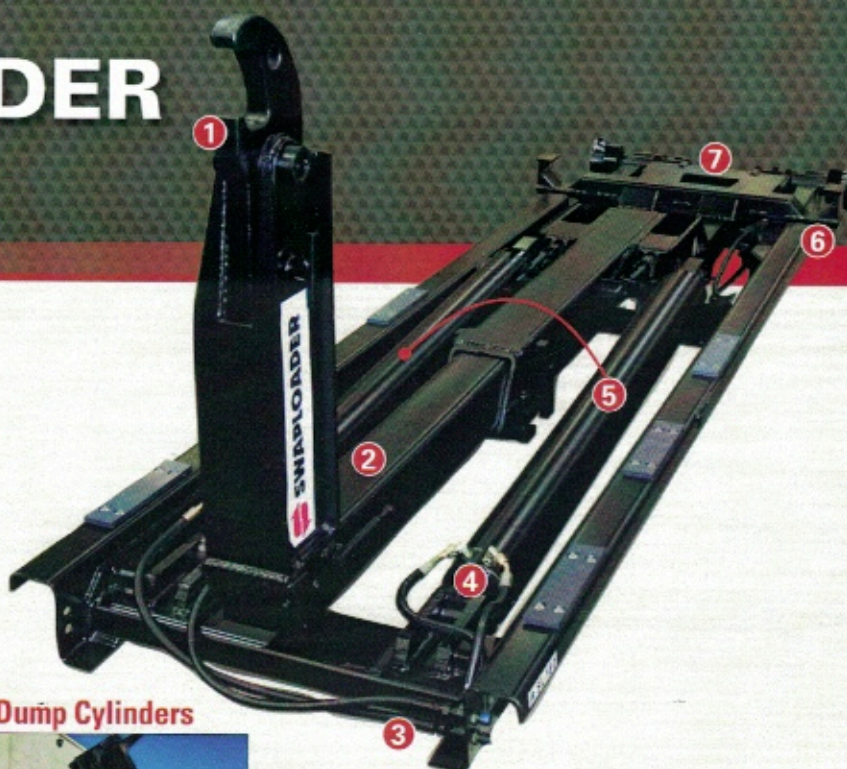

Safely secures body during transport, dump, and weight transfer situations.

7 Dual Rear Pivot Section

Provides true dump truck capabilities and increased leverage during the mount cycle.
