

# PERMANENT MOUNT

When removing the Zacklift is not necessary,  
the Permanent Mount is the solution.

- ✓ Every model of Zacklift, Z453, Z353 or Z252 is available in either the removable FIFTHWHEELER or the PERMANENT MOUNT.
- ✓ The Zacklift is exactly the same in either application, only the mounting hardware differs.

*Trash trucks, loaded dump trucks; our drivers can't find anything they can't lift and scale. I love it. - Art Cristie | Brothers Towing , Palm Springs, CA*

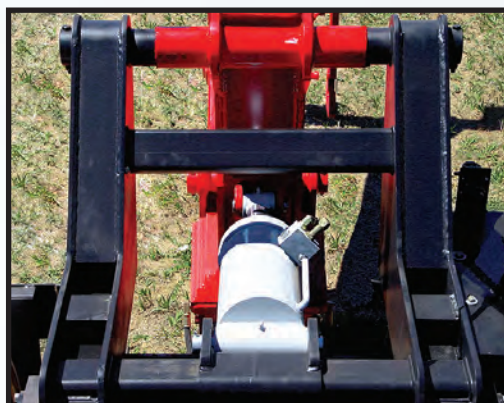

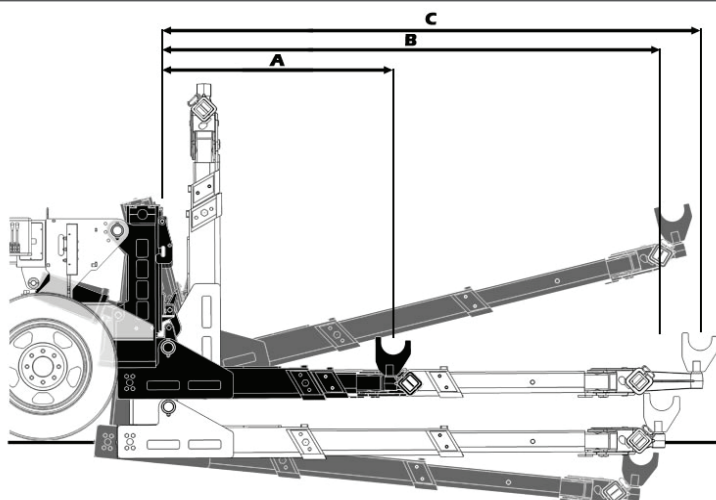

# Transform any truck into a money making, money saving transporter.

- ✓ Always affordable
- ✓ Loaded with standard tools to move every rig every time, damage-free
- ✓ Mounting is completed with a single drop-in framework
- ✓ All height and angles are factory pre-engineered
- ✓ Zacklift guarantees the most compact, tight to the rear-end mounting position, moving loads forward for greatest safety and greatest payload

• Z453 - 45,000 lb. • Z353 - 35,000 lb. • Z252 - 25,000 lb.
